Furniture Moving

Standard Furniture

Prices listed in a quote may include moving of standard furniture.

Standard furniture moving includes regular desks, chairs, 2 drawer file cabinets, half empty 4 drawer filing cabinets and empty bookcases. (Excludes modular furniture, fireproof file cabinets and safes).

Modular Furniture

Prices listed in a quote may include **lifting of modular furniture OR full library book stacks!** Modular furniture can be lifted utilizing a lift system and carpet tiles installed. This avoids the trouble and expense usually incurred the modular furniture dis-assembled then re-assembled.

Electronic Equipment

Moving sensitive electronic equipment, including computers, telephones, copiers and servers should be completed by your IT or facilities department. All electronics will need to be reinstalled after installation.

Toilets

Continental Flooring Company will provide a new wax ring as part of a R&R. Our flooring technicians do not carry plumbing parts and are only qualified to remove and reinstall toilets at the wax ring. Project owners accepts all responsibility for ensuring all other connections ensuring they are in good working order. Continental Flooring will not be responsible for other related plumbing issues.

Personal Items

All personal items including, photos, paperwork, office supplies, etc... must be removed from desktops and work surfaces in order to efficiently move furniture and modular work spaces.

Existing Appliances

Arrangements must be made by the customer to have any **gas appliances disconnected** prior to the start of flooring installation. Our flooring technicians are not permitted to move connected gas appliances. All standard electronic appliances may be moved by our crews.

Confirmation of furniture moving requirements will be discussed and itemized at the time of your quote.

Your Sub-floor Condition

Important information about your Sub-floor

Your floor covering quote may include minor, standard or severe sub-floor preparation, depending on the condition of your existing floor and sub-floor

Continental Flooring Company does not test for asbestos or provide asbestos abatement. If you suspect your floor covering may have asbestos in it, we are happy to refer a qualified contractor.

We have ASTM Certified Moisture Testing Trained staff to determine if your flooring has a moisture issue. We are able to perform both RH Core Testing as well as Calcium Chloride tests.

If necessary, moisture and alkaline remediation is available.

Continental Flooring Company can furnish and install Plywood Underlayment. Additional options are available in situations of moisture, cracks and mold/mildew if necessary.

Dry pack and waterproofing for Resilient Tile or other flooring materials is available.

Depending on the type of floor covering you are having installed determines the importance of the subfloor smoothness and surface preparedness. Our experienced contractors utilize the best materials for your subfloor to ensure the floor covering installation is presented in its optimum potential.

Continental Flooring Company can inspect your floor covering prior to demolition to determine what can be expected or required to complete your floor covering job to your satisfaction

Installation...

Continental Flooring Company takes great pride in our installation crews. We have years of experience and provide high quality workmanship while completing your project.

Our crews can install up to 50,000 square feet per week.

When planning your flooring projects, keep in mind Continental Flooring can take the pressure off of your summer by replacing the floor covering in an entire school over the various breaks during the school year!

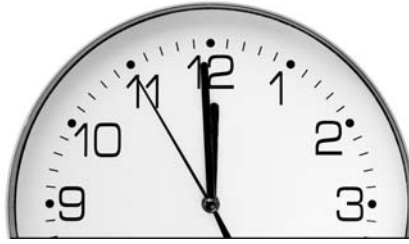

We also offer evening and weekend installation for no additional charge.

We can get your job done on time.

How much time do I need to order products?

Carpet (broadloom & tile) could take more than **6 weeks** to arrive after ordering. The manufacturer may have to produce the product! There are **QUICK SHIP** products available with much less lead time. We are happy to provide you a solution to each requirement.

Vinyl Composition Tile floor covering, depending on the products can be locally stocked. Standard products like, VCT are readily available.

Luxury Vinyl (LVT or LVP) may have a longer lead time due to your choice of product and the manufacturer production requirements. We do our best to provide quick turnaround on all orders.

Rubber Tile (Squares & Interlocking) may have a **6 week** lead time after our initial order. Continental Flooring has several manufacturers to choose from to assist you in getting your job completed on time.

Sport Flooring when customized, may require a longer production time. **6 - 9 weeks** is standard for product to arrive.

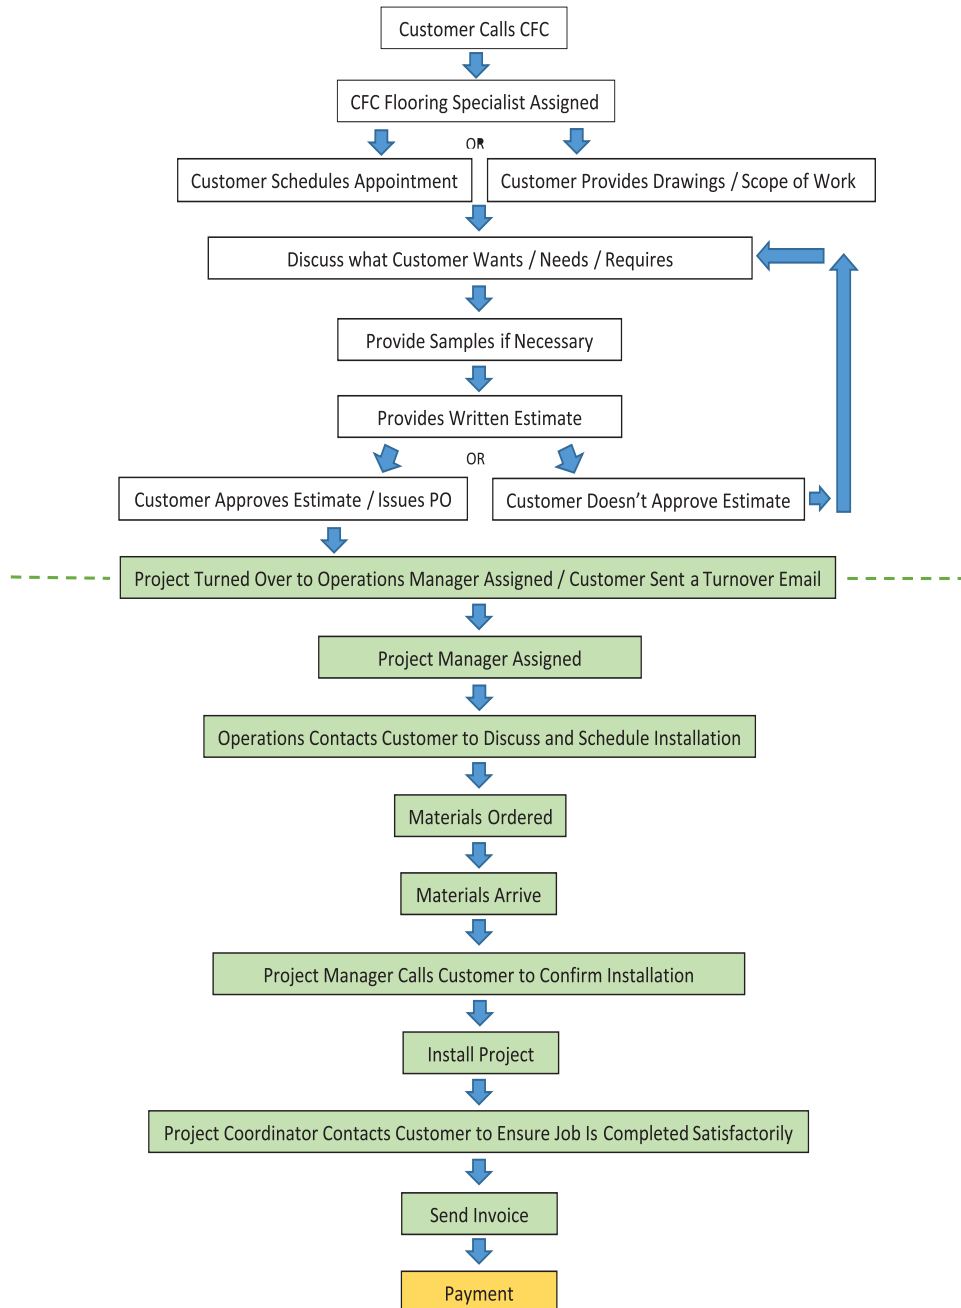

Ceramic / Porcelain Tile is supplied by many manufacturers in the south-west region. Production of tile is worldwide. Depending on the product chosen and production location determines the lead time required. The delivery range is from days to weeks and can be specified during the sales process.

Polished / Stained Concrete involved products which are locally available. The labor intensive process is what is time consuming. Once scheduled, the labor will usually be completed within a few days.

Each project is different. Our experienced staff will help you schedule your floor covering project with efficiency and the best value specific to your facility and type of material used.
